NVESD CAREER DAY

LAB TOURS. DEMOS. MEET & GREETS.

Thursday, March 15, 2018 at 0900-1400
NVESD, Fort Belvoir, Virginia

U. S. Army CERDEC Night Vision and Electronic Sensors Directorate (NVESD) is a government R&D laboratory focusing on EO/IR sensor technologies that enable the modern Warfighter to have a battlefield advantage in any environment. NVESD is opening its doors to the public for a unique opportunity to learn about our national defense mission and employment opportunities. U.S. citizenship is required to attend.

For more information, find us on LinkedIn by searching "NVESD" or send inquiries to rita.m.coghlan.ctr@mail.mil.
